

Hola...Greetings to you.....

Thank you for your prayers and giving that has made it possible to have our kids at The Purple Palace. We were able to meet the junior high and high school fees and tuition this month! Praise the Lord we just received a much needed van! These are great blessings as the Lord continues to provide for the needs of the kids. Thank you! With you on board, we are a fantastic team that can change the lives of 80 precious children and more...

NOW we believe God is showing us to pray and trust Him big time for the purchase of the purple palace (we are currently renting). We believe that God also wants to use the whole plaza of 6 large buildings to be a complex for Christians to reach out to and give hope to people of the red light district located next to us. This area we want to buy cover approx. an acre.

This purchase will permit us to expand the children's home, have an outreach center for teens still in the streets, a

drug rehab center for girls and women. These are those who are the moms of our kids, girls who are into drugs and prostitution who need help. There will be an open air restaurant that will be a beautiful outreach to tourists and locals coming from the US. There will be a place for college and career students to live who have been in other orphanages, but still need to complete their education so they will not remain unskilled and revert to their old way of living. This Christian complex will be a huge victory to those who want to change lives. This will be a blow to those who want to destroy lives with illicit activities. It will bring hope and a huge change to this forlorn area.

We finally, after months of waiting we received the price for the entire property. The owner is asking 2million dollars. This is commercial

downtown property which was assessed for double what the owner is asking. We believe we can get the current price lowered for this prime property at the entrance of the tourist area of Tijuana and red light district. What an opportunity to be able to be one of the first to greet visitors from the USA and give them the hope of salvation....some on their way to the red light district.

Please remember the kids in your prayers too....every day they need all that is necessary to care for them well. Thank you!
